Dearborn Pa

Dear Louise,

It is quite cool to night but the day has been wonderful.

Edna and I went to church this A.M. listened to Rev. Mark Farnbom from Detroit, Mich. Guess his talk was good, but I am so particular about what I hear that I could not get much of it. - At the close of meeting instead of coming home we went for a walk up into Play Aug Park and get a view of the changing foliage. Some of it inside the Park grounds is very beautiful. All of the flowering annuals and roots have been taken out of the beds and stored away but the roses are just lovely. A high board fence has been built around the Museum, and a large addition is in progress. - We did not go to see the monkeys or other creatures. We got back to the house at three and decided that we were equal to a big dinner which we got without any wasteful of time and did ourselves fill up to the cover.
